

## Board Member Application

The time has come for members interested in running for the SIP board to submit their bios for the upcoming election. The application must be received no later than May 13, 2019 to be counted as a candidate and placed in proxy ballot form. The boards top priority is hoping those that decide to run have a strong interest in ensuring South Island Plantation's future is both promising and always moving forward towards becoming a successful gated community.

The three key ingredients of becoming a successful board member are having a focus on the big picture, understanding your fiduciary duty to the membership and property and able to put aside personal agendas ensuring the safeguarding and improving the members investment as a whole.

In addition to the candidate forms that our office will be receiving, Teddy Dowling, Kevin Dopf, and Randy Jarvis have decided to run for the Board this year. All accepted candidates will have their Bios placed on the website for homeowners to read.

The information you provide below will be posted on the HOA site for owners to learn about the candidates for the board. You can email your application with the required information below or mail it to:

Leidy Gray, Community Manager  
First Service Residential  
349 Folly Road, Suite 2B  
Charleston, SC 29412

**NOTE: In order to be placed as a Board candidate, your account must be current.**

Name: \_\_\_\_\_ Lots Owned #: \_\_\_\_\_

City & state you live in: \_\_\_\_\_

Please keep your bio and goals to around 200 characters or less. Below is a sample of what would be an informative and helpful bio.

*Hi—I'm Jen Schwartz and I'm so thrilled and honored to have been nominated to be on the WNA Board of Directors. Breckenridge has been our dream location for over 15 years so when we finally made the move, the goal of living in this amazing town was accomplished and being a (new!) part of the Wellington Neighborhood was icing on the cake. I am a nurse practionier ethical, honest, and caring person who strives to build lasting relationships. I have been a homeowner now for about 15 years so I know the ins and outs of what it's like to not only own, but also be a good neighbor. I love being a part of things I am passionate about, and I am passionate about our development. My goal as a member of the Board would be to continue to represent the neighborhood with strong work ethic, good communication, honesty and integrity safeguarding our investment and being a good steward of the development. I feel strongly that I could work well with our incoming HOA Manager and anyone else who is elected to the Board. Thank you for your consideration.*
